**A PERSONAL MESSAGE TO JOHN PATMOS, ET.AL.**

*I received some very sad personal news pertaining to the future and asked The Lord what to do.*

*“God ‘gives’ Grace...but God ‘has’ Mercy. They are administered in different ways. Many times Grace is first and many times Mercy is first. They are aspects of the Grand Spirit of Love.*

*The arrogance of life will terminate when Heaven teaches you about how Love and the other Spirits exist. It is far too complex for the human imagination and you will love learning about them. God put much of Himself into these Spirits and they are glorious indeed. They live...and at a level that far exceeds any imagination.*

*Love is an ingredient of that which is created within almost all that God has made, and He doesn't just make it and leave it...He is always there with it. This is why you hear that God is Love, and that 'Love is a Being'.*

*You will enjoy the Realms of the Great Spirits once they are opened to you and you will spend much time there...for there is much to know, learn, and appreciate. You will learn much about peace when you visit the Realms of the Great Spirits and you will be lifted to new spiritual heights.*

*Keep your focus on the hereafter...but tolerate today. You have so much waiting for you beyond the veil. It is all glorious wonderment in love, and it never stops. Embrace it and let its essence shine through you, then others will know that you have wisdom far beyond the boundaries of the world.*

*Be at peace. I will be here for you.”*
