

01-10-2021 A message from: John Patmos

THE LAST

To all of you around the world who view this site that contains the true illumination of God's Word to His people in these last days, I come to you sadly and tell you that there will be no more public letters from God posted in this place. He has informed me that this phase and method of delivering the truth to a dying planet has ended, and He has asked me to write the final letter. He will then take all these letters and a correspondent book called "*Choice*", and have them published and circulated all around the world in many languages, then the end will come.

In the near future you will see the difficult events of the two-year 'Calamity', then the seven years of the 'Time of Trouble' as mentioned in the Bible, then the 'second coming' of Christ; and many will be lost but many will be saved as well as they study the whole truth and understand and live it. This material here, plus the Bible, and all Words of God given throughout the ages are the truth, and all those who know it and live it will be saved. Those who are aware of it yet ignore it and think that they are 'good' enough in their own assessment, or who simply deny the existence of God willfully will be lost to an unending eternity of pain and suffering, or at best a long and painful period in a realm of correction. God is a God of love but He is also a God of justice, law, and equity; you must study the depths of His Word to understand this principle, and this is absolutely necessary for your salvation.

About me: I am not unusual, a college educated successful business man with a family, but with the gift of 'hearing' and on occasion 'seeing' through visions and dreams. I did not ask for these gifts, and was not always aware of them acutely until as an adult I witnessed several miracles, followed by The Holy Spirit's perfect voice speaking to the center of my mind with absolute clarity, then illuminating situations, giving counsel, warning of impending danger, and giving prophetic insights into future events. You will witness this as you read the perfection embodied in all these letters. I have also hundreds of private messages that will be disclosed as we draw closer to the Calamity.

I have no pride in what The Lord has allowed me to do here, for He could have chosen anyone. I just happened to be an open vessel at the right time, and I am sure that there are many worthier than I. For many years I had been a rebellious spirit and a sinner even though I was raised with the knowledge of God's Word. Moreover, I viewed it as incomplete, because as I perceived and was taught all the puzzle pieces did not fit together and some were missing. It was only when I pursued God and the whole truth with all my heart and repented for my sins did God begin to reveal it to me, and now the entire puzzle fits together perfectly and I know God's plan for man and the extent of His love for all, as well as the answers to the most perplexing questions that have plagued man from his inception, and I am eternally grateful.

Now, given this unusual opportunity I would like to give a brief synopsis of a few of the truths that I have realized through these revelations of God for the edification, knowledge, and salvation of all we poor souls in this cursed world.

1. There is a God and a Trinity, yet due to our simplicity we have always found it difficult to understand Them, but They are real and are here, as are the created angels, great spirits, and Heaven.
2. Satan and his demon angels are also real and so is Hell, and it is far worse than any human's imagination can conjure, and it is forever. I saw a brief vision several years ago for only a few seconds of my sister-in-law in Hell, and I had to cry out immediately to The Lord to stop it.....it was horrific and it is still emblazoned in my mind.
3. There are many things that God hates, but near the top of the list is 'pride of life and becoming one's own god'. This leads to a failed life and a destination of pain unless there is repentance and expiation equal to the sin and the ripple effects thereof. Many people, especially the ones who deny God's existence or who arrogantly espouse evolution cannot accept any higher control, and they value the human existence based on perceived intellectual capabilities and physical characteristics, yet this is great folly. This is a form of idolatry that is mentioned in the original Ten Commandments. God values the heart most highly.
4. We are created beings, as are all universes and all life. We humans have been given the opportunity through free choice to attain heights and communion with God to a degree that few creations have. But along with this great opportunity comes great responsibility, and the main one hinges upon free will. We can save or doom ourselves by our choices exercised every second of every day.
5. All that we have lived and experienced is kept in the annals of Heaven, and will be reviewed with us after we die. This will determine our final destination.
6. All those still alive on Earth, in the Realms of Correction, or in Heaven have the everlasting opportunity to learn and grow to be as God is; never attaining the status of God, but growing ever closer to Him in stature and understanding.
7. All good, in accordance with God's Word brings rewards, but all evil brings punishment.....even to eternity.
8. The necessary 'Triad of Salvation' is righteousness, holiness, and purity, and there is no sluggard's path to Heaven.
9. God is love, but a love far beyond our understanding, and everything that He does, even though many times we humans perceive differently is for good.
10. There have been prophets all throughout history, and some religions have accepted them and some have not, but this does not dilute nor diminish these Words that God has given here in a very timely manner.
11. When Jesus said, "be yea perfect" this was not a polite suggestion, it was a loving mandate.
12. The Holy Mother of Jesus has visited the Earth many times, and continues to intercede for us all in her infinite love and mercy. For all who attain Heaven, she will be their permanent Mother.....a tremendous blessing.
13. Throughout history many have foretold the end of Earth's time. This time however it is factual and most who live now will see the awful events, beginning very soon and continuing on with increasing ferocity.
14. We humans are all eternal beings; when the flesh dies the spirit and soul live on.

There are many other truths that all people need to know and they can be found in all God's Word, and with a special illumination through these letters, and I respectfully ask you all to pursue them. My heart aches when I think of all the poor souls falling to Hell each day, and all who are there now,

when all they needed to do was to accept the truth of their existence and embrace God. God's heart also cries for each of the lost, and He will forever hold this knowledge. Please open your minds and hearts and search for the truth. All who diligently search will find, this is a promise of The One Whose promises are true and unchangeable.

Love conquers all, and love is the very reason for our existence. My love for all creations thus brings me to desire fervently that all know the truth and live it, and thus die in the mercy of God.

Please heed these words and become saved, and you will forever rejoice in the most wonderful place in all existence, the unlimited realms of Heaven.

Barnabas Chaldee, AKA John Patmos
