

EVOLUTION?

“You make your own way in this world, right? The clothes that you wear, the car that you drive, your home...are all things that your labor and efforts have gained for you—correct?”

Then...the fact that you are a male, or a female, of the age that you are, is just happenstance, right? Your eye color, your hair, your IQ, your physique, your athletic abilities, were all due to your DNA; and that came from your family tree? Where did your family tree come from, and who were the first of your family? Did you descend from an animal?

Why are all humans evolved at generally the same state, when humans evolved from animals? Wouldn't some evolve at different rates, depending on the relative environment?

Look at all the other species. Why are they so distinct, and why have they all evolved at the same rate? Why is there such precise order to everything, all the way from the heavens, down to the individual cell?

Ponder these situations, and you will realize that none of it could have simply evolved to what it is now. It is simply not physically possible, given the cell structures and functions, and the elements, and how they relate to one another—just to sustain life.

Can you guess who is behind these errant ideas, and who propagates them? Satan...and he influences others to believe them. Why does he do it? So that humans will deny God, and lose their salvation; then he has them in his trap, and when they die, he carries them off to his domain of pain and torture—Hell. He is greedy, and wants to take all of you that he can, for when Hell is populated, it is static forever; and there is no way out for any of the inhabitants.

Then one must ask themselves, why is it so easy to believe something so preposterous as evolution; yet something so logical and rational as creation is not accepted by a majority of humans today? Why is it so difficult to believe that there is a Supreme Being, that is far advanced from where humans are, and Who has a different physical and spiritual makeup than humans?

Compare yourself to a piece of sand. Is it hard to accept the vast differences in composition and function? Then why is it not the same with God, as He compares to man? It is, and it always has been.

All you need to do for salvation and grace from your Creator, is to accept this as truth, and go forward with the instructions that He gives you in His Word.

Why do you wait...do it now and be saved.”

A SCIENTIFIC DISSENT FROM DARWINISM

"We are skeptical of claims for the ability of random mutation and natural selection to account for the complexity of life. Careful examination of the evidence for Darwinian theory should be encouraged."

The Book of Enoch illuminates many biblical ideas and also shows the order of God's system, which did not happen by chance: Chapters lxxi. to lxxxii. contain the "book of the revolutions of the luminaries of heaven," the sun, the moon, and the stars, controlled in their movements by the administration of angels.

And Enoch walked with God after he begat Methuselah three hundred years, and begat sons and daughters: [Genesis 5:22](#)

Who was Enoch? As we read of Enoch in Genesis 5, it leaves us with questions. Hebrews 11 has the answers and Jude also quotes Enoch. Why was Jude familiar with the words of Enoch as the Book of Enoch are not included in our Bible? The answer of course, is The Book of Enoch, which is actually quoted by Jude in the New Testament.

What is the Book of Enoch and where did it come from?

Enoch was the great-grandfather of Noah. The Book of Enoch chapter 68:1 "And after that my great-grandfather Enoch gave me all the secrets in the book and in the parables which had been given to him, and he put them together for me in the words of the book of the parables."
